
Applications Type

PS... series can be assembled both on the valve and on the panel.
PD... and PW... series have been designed to be directly integrated on the valve.

Follow the specific instructions given with the product.

Mounting on Valve

Apply the MultiFaster directly on the valve by using the proper Faster fittings AD12G-DMLR1,5 series.

Panel Mounting

Arrange on the fixing panel two holes diameter 8,5 and apply the fixed part by using M8 hexagonal head cap screws.
